Opposition to HB 89 Action Plan:

There are three groups that Rep. Kintigh might listen to--

1) If you have a young person who has been stopped and questioned by police, *we need your help, too.* ([Click here](#) and tell us what happened. Let us know if we can use your name, location, prefer initials, etc.)

If you oppose this bill and are 2) his constituent or 3) a law enforcement officer, **will you call or email his office and tell him you oppose HB 89?** That's all you have to do.

Use the call scripts below or cut, paste, and edit into an email. There are more arguments below.

Call the office, and tell his secretary.

For Constituents

Hi. I am _____ and I am from _____. Please tell Rep. Kintigh that I appreciate his good intentions, but I oppose HB 89.

Law Enforcement

Hi, Please tell Rep. Kintigh that I am _____, and a fellow law enforcement officer from _____. Please withdraw HB 89. Curfew ordinances will ultimately do more harm than good.

Background

Rep. Kintigh introduced this bill at the request of the Roswell City Council; he was formerly the police chief of Roswell and an FBI agent. His hope is that this law will reduce juvenile crime, and crime against juveniles. From *his* perspective he is protecting juveniles not persecuting them.

CAPE'S Position: We oppose curfews in general and daytime curfews in particular. Among other reasons

- While criminals are hiding in alleys or ducking down in cars, it is the private, charter, alternative, dual enrollment, and home schooled children who will be stopped, interrogated, and forced to prove they have permission to be out in public.
- Most crime against juveniles occurs between 3:00 and 6:00 pm; a time period not by school hour curfews.
- There is no consistent evidence that curfews reduce crime rates.

- Most municipalities do not have areas to allow youth to wait for parents, other than foster homes, detention facilities, or jail. If the parents are unavailable, what will they do with the children FOR *SIX HOURS*?
- Kids and parents will spend more time in court proving they were not violating curfew...students won't be in school, parents won't be at work or supervising their other children, police will be in court and not on the streets.
- Curfews are a clear violation of a parent's right to parent. They criminalize young people for looking young and being visible.
- CAPE acknowledges that Rep. Kintigh tried to make provision to keep innocent students from being *convicted* of curfew violations, but that would not keep those students from being stopped, interrogated, delayed, and embarrassed by police officers who are supposed to be fighting crime, not stopping young people without any reasonable suspicion of criminal activity other than being outside.
